Collect organic matter
Reduce organic matter to pieces
Mix in any additives
Substantially dry pieces
Remove substantially dry pieces of organic matter
A
Collect organic matter
Add water
Reduce organic matter to pieces
Remove liquid water
Mix in any additives
Substantially dry pieces
Remove substantially dry pieces of organic matter
B
Collect substantially dry pieces of organic matter
Mix pieces with water and binder to form slurry
Mix in any additives
Form slurry into a shape
Dry slurry into a solid
Remove solid
C

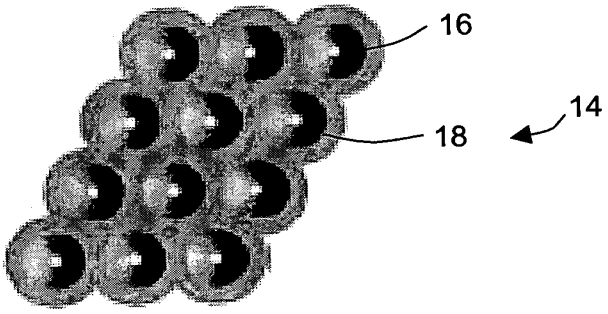

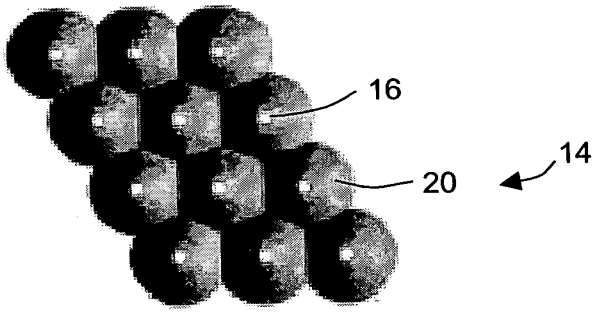

FIGURE 3

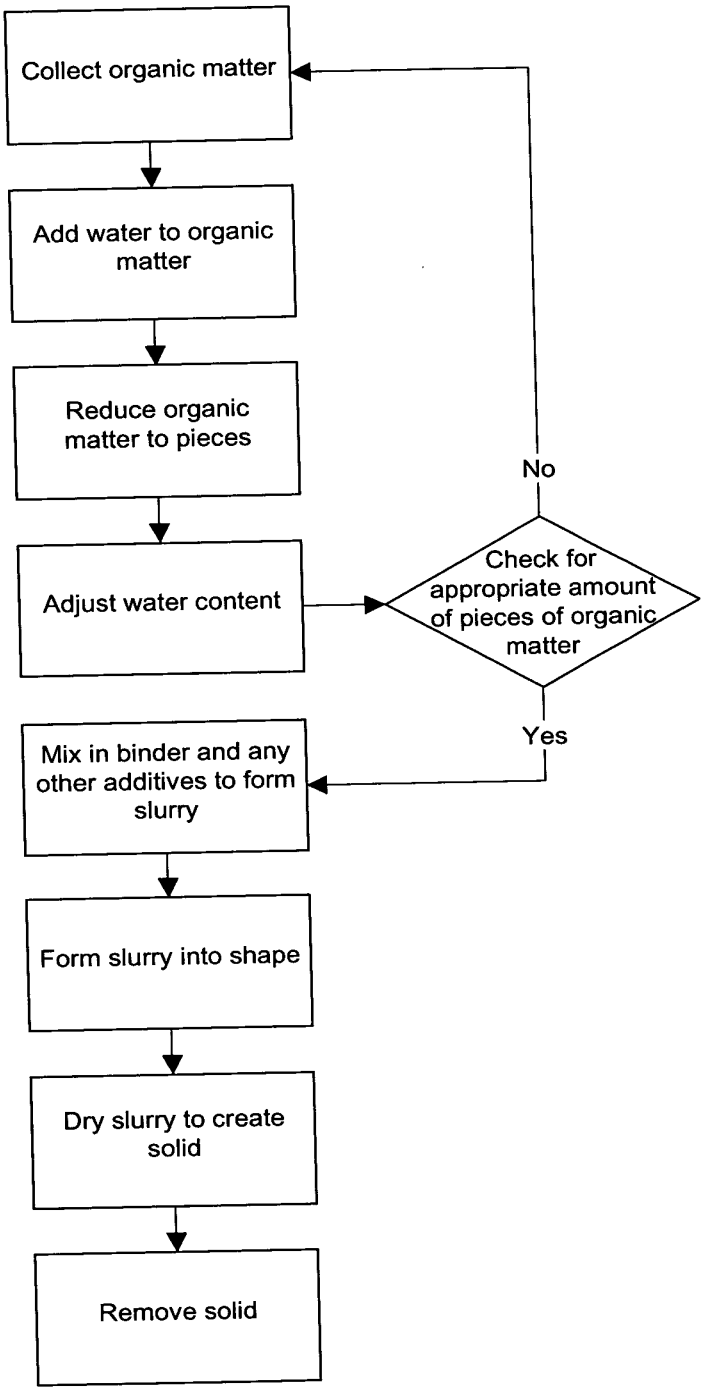

Collect organic matter
Add water to organic matter
Reduce organic matter to pieces
Adjust water content
Check for appropriate amount of pieces of organic matter
No
Yes
Mix in binder and any other additives to form slurry
Form slurry into shape
Dry slurry to create solid
Remove solid
